

## Fitted Plug Designs

Effective: October, 2008

EnviroCoolers Fitted Plug (FP) designs are an ideal cost-effective choice to maintain your valuable payloads at an acceptable temperature when shipping. The Fitted Plug (FP) design are manufactured using PolyUrethane foam which has a higher insulation factor than expanded polystyrene (EPS), extruded polystyrene (XPS), and other rigid polyurethanes. The Fitted Plug (FP) range come in an range of wall thicknesses and a multitude of sizes. These lightweight one-piece molded polyurethane coolers are held in an outer corrugate box sealed with a soft foam polyurethane plug. EnviroCoolers moldular fitted plug designs allows for easy pack-out, re-use, replacement of corrugate for re-use, and recycling. EnviroCooler®s Temperature-Sensitive-Products Packaging (TSPP) Coolers are manufactured with our environment in mind. Water-based rigid polyurethane foam is molded so no CFC's or HCFC's are emitted during production or contained within our product. EnviroCoolers® are made durable for multiple uses within 9 months from date of manufacture and separable for the eventual recycling of their components.

Wall Thickness	EVC Product ID	O. D. L x W x H	I. D. L x W x H	# Units per bundle
1.5"	15-20 FP	21x14x15	18 x11x11	18
	15-30 FP	18x16x20	15x13x16	12
2"	20-05 FP	12½x10¼x8	8½x6¼x3	64
	20-10 FP	13x10x13	9x6x8	48
	20-18 FP	15x12x11¼	11x8x6¼	48
	20-24 FP	14½x14½x13½	10½x10½x 8½	36
	20-20 FP	21x14x15	17x10x10	18
3"	30-24 FP	14½x14½x13½	8½x8½x6½	36
	30-20 FP	21x14x15	15x8x8	18
	30-30 FP	18x16x20	12x10x13	12

### Notes:

- Terms are net 30 days, F.O.B. Foremost in Packaging Systems, Inc. (Huntington Beach, CA).
- Less than bundle quantities are subject to an 18% handling charge. Minimum order \$75.00 plus freight.
- All sales are F.O.B. origin
- Discount is additive based on total pallets per individual shipment.
- Custom orders in size, corrugated type, printing, or coatings are available with minimum set-up costs.
